Hannibal Jumbo tent***

Hi Peter - we just got back from our long weekend away - we were over at the West Coast of Tassie, near Marrawah during the West Coast Classic Surf competition.

Thought I'd send you a pic of our tent set up

It was fantastic. it really does only take 5 minutes (or less) to set up. While we were there we had 2 extremely windy nights and expected the Jumbo part to take off like an umbrella - but no way. Everything stayed put and we were very comfy. We even managed to unwittingly camp over several nests of Inchman Ants (usually a huge ouch factor when camping), but we had no problems keeping away from them.

Roof Top Tents Rock!!

Thanks heaps for your support.

Take care
