

100 Series Landcruiser Hannibal Roof Rack X-demo.

Hannibal roof racks are manufactured using 6063 Architectural grade aluminium to keep the weight down and to ensure strength and reliability.

These slimline flat bed roof racks are proving to be popular due to their reduced wind resistance that means less drag and better fuel efficiency.

The roof racks has optional rails and are supplied with tie down bolts that slide into the extrusion.

As this roof rack has been used for Hannibal displays it will be covered by a Lifetime guarantee to the new purchaser.

The special price to clear is:

\$1,000.00

Normal retail price is \$1,750.00. Prices do not include fitting or freight.
