

***Testimonial from Simon and Jodee Friend  
from the Sunshine Coast QLD  
Hannibal Classic Canvas tent***

Jodee and Simon traveled for 11 months around Australia using the tent almost everyday during their adventure.

Here's what Simon had to say about one of their most memorable experiences.

**Tassie proved to be the biggest test to the tent so far particularly the west coast - 40 - 60 knot winds and horizontal rain and only the smallest weep around the zippers.**

**We did have to anchor the ladder down as the tent was being folded in half by the strength of the wind - very impressive !!!!**
